

SUDDEN DEATH OF
SENATOR FEARNE

Caused Suspension of Legisla-
tive Business at Mad-
ison Today.

DEATH DUE TO QUINSY

His Home is in Waushara
County—He Supported Pri-
mary Election Bill.

AN EXTRA SESSION LOOMS UP

Madison, Wis., April 30.—News received in Madison today of the death of Senator Thomas Fearne at his home in Waushara county last night practically caused a suspension of legislative business for today. The senate held a session for the purpose of adopting resolutions to the memory of Senator Fearne. The senator's death was due to quinsy and was very sudden he having gone home Friday after having been in attendance on the legislative session all of the week. The senator was fifty-five years of age and entered the senate two years ago. He was a strong supporter of the primary election bill.

Governor La Follette this morning signed the bill appropriating \$20,000 for new levees at Portage. During a brief assembly session previous to the announcement of Senator Fearne's death this morning the bill which had already gone by the senate providing for separate ballot boxes for women in school elections was passed.

The bill creating the county of Gates was also passed. The bill to give university students the right to vote in Madison was indefinitely postponed.

EXTRA SESSION LOOMING UP.

Apportionment Muddle May Force the
Solons to Meet Again.

Madison, Wis., April 30.—Unless the senatorial apportionment muddle can be straightened out before Thursday, and a plan for the congressional apportionment be mapped out, there will be no final adjournment on May 11. An extra session is looming up and the members are coming to see that every effort should be made to avoid it. The prospect of a special session makes the question of adjournment unusually interesting. It is rumored that it is Governor La Follette's intention to call the legislature together again and compel it to wrestle with primary election and taxation matters.

Fight on Immigration Board.

In the face of a special message from the governor opposing it, the legislature is going to pass a bill for the reestablishment of the State Board of Immigration. Last night the assembly ordered it to a third reading over a committee recommendation for its postponement, by a vote of 37 to 27, and the senate bill will pass it without doubt.

When Governor La Follette asked for the resignation of Secretary Taylor and put an end to the work of the old board, the northern part of the state lost no time in entering its protest, but in spite of that the governor sent a special message to the legislature recommending that the board be permanently abolished.

On the strength of his recommendation the assembly committee recommended it for indefinite postponement but when the bill came up on the floor last night the governor's friends refused to follow him and the bill was advanced to the third reading.

Senate Receives Reports.

Nine of the thirty-three members of the upper house being absent, the senate simply received committee reports last night. Owing to the uncertainty as to when the apportionment bill will be ready to be reported, the senate on motion of Mr. Kreutzer, reconsidered the vote by which it adopted joint resolution No. 388, shutting off the introduction of new business and laid the resolution over a week from today.

To Publish W. N. G. Bill.

The bill providing for the reorganization of the Wisconsin National Guard has been signed by Governor La Follette and it will be signed by the Secretary of State in a few days. The bill goes into effect on the day of its publication and quite a few changes are provided. Among them is one that ten days of camp be held each year instead of six as heretofore.

Captain French Honored.

The assembly passed a resolution recognizing the services of Captain French in the volunteer service and voting him a medal. Two vetoes were received from the governor, one bill No. 427A, relating to the Merrill street railway franchise and one relating to the lake drive in Milwaukee.

Over 400 New Laws.

It is estimated that when the ses-

sion is ended something over 400 new laws will have found their way on the statute books. The legislature has apparently done very little but up to the present time nearly 250 bills have been signed by the governor and the most of them published. Within the next few days a large number of bills will reach the governor's office. Two years ago the total number of laws passed was 357, which number will be exceeded before this week is very old. It is believed that the 400 mark will be reached, notwithstanding that the governor has sent up more vetoes than any other governor in recent years.

Place on Board of Control.

It is understood that pressure is being brought to bear on the governor to get him to appoint a member of the State Board of Control in the place of E. R. Pethrick, whose term has expired. Certain of the governor's friends are very active on behalf of Charles Bowron of Oshkosh and others are as energetic in behalf of Charles Ross of Waukesha, notwithstanding that the impression prevailed some days ago that former Senator M. C. Mead of Sheboygan had been slated for the place. There are a number of other candidates for the place.

FOREST FIRES IN
NORTH WISCONSIN

The Woods Are Dry as Tinder, and
Fierce Fires Are Burning in
Many Places.

Milwaukee, Wis., April 30.—Forest fires in Wisconsin at this season of the year are unusual, although this is not the first time that vast tracts of pine have been burned over in the spring. Up to this morning the fires, which are confined to no particular district of the lumber regions, have resulted in serious losses to millmen and others. A half million feet of logs belonging to the Bay Shore company at Marinette were destroyed.

The fires are raging near Mellen, 100 miles from Marinette, and at this place a Stevens Point company suffered a loss of a million feet of logs. The Wisconsin central trains could not pass through the burning territory, and there was great damage to the track and other property. A report from Chippewa Falls is to the effect that unless there is a heavy rainstorm within a few hours there will be heavy losses.

The woods are as dry as tinder and the fires are burning in many places. A three-span bridge over Trout Falls near the "Falls" was destroyed last night. At Apolonia there is great alarm owing to the dryness of the forests and cuttings, in which several fires are raging. Homesteaders are plowing wide strips around their buildings, but in a storm of fire these precautions are worse than useless.

ALLEGED MIRACLE
AT MUSKRAT CITY

Catholics Visit Home of Pole Who
Claims That Blood Issues from
Wounds of Pictured Savior.

Marinette, Wis., April 30.—There is excitement in Menominee today over an alleged miracle in the home of Antone Chernock, a poor Pole, residing in a district known as Muskrat City. Hundreds of persons have been visiting the place to view the strange manifestation of blood issuing from the wounds of the Savior, and the more devout have been praying before the picture.

It represents the crowning of the Blessed Virgin, and the figures of the Father, Son and Holy Ghost are shown. Chernock states that he was praying yesterday morning, when he suddenly saw blood coming from the wrist heart and foot of the Savior. His other wrist and foot are not shown.

Chernock summoned his pastor, the Rev. Father Papon, and the latter, with the Rev. Father Cleary, investigated the alleged miracle. The attention of Bishop Eis has also been called to the manifestation. Father Cleary is inclined to believe that it is due to natural causes, but says a miracle is possible.

The blood or red coloring matter is plainly visible to the thousands who have visited the place.

DREADFUL CRIME
OF A ST. PAUL MAN

Drowns His Four Children and Then
Ends His Own Life in the
River.

St. Paul, April 30.—William Rosenfield is believed to have thrown his four children, ranging from 2 to 7 years of age, into the river from the Marshall Avenue bridge, which is 200 feet above the water, and then leaped after them. None of the bodies has been recovered, but the police say they have almost conclusive evidence of the tragedy. Rosenfield, who had for some time been separated from his wife, is believed to have become insane from brooding over his domestic troubles.

WILL OBSERVE MEMORIAL DAY WITH
EXERCISES IN COURT HOUSE PARKRADICAL CHANGE IN USUAL MANNER OF OBSERVANCE OF
THE DAY SACRED TO THE SOLDIER DEAD—PARADE,
SPEECHES AND MUSIC HELD DOWN TOWN.

If W. H. Sargent Post, No. 20, G. A. R., accepts the report of its Memorial day committee, a radical change will be made in the observance of the day sacred to the soldier dead.

A meeting of the committee which consists of J. L. Bear, S. C. Burnham and C. D. Child has been held and the gentlemen are unanimously in favor of holding the general Memorial day exercises in the Court House park in the afternoon instead of at the cemetery as has been customary. The plan is to have the Grand Army men go out to the cemetery in the morning and attend the decoration of the graves without any attendant ceremonies beyond the ritual service of the Post.

The general service will be held in the afternoon and all of the civic societies will be invited to attend.

There will be a short parade concluding with the exercises at the park which will include the usual music and Memorial day addresses. The school children will also be asked to assist in the observance of the day and the idea is to make this observance as general as possible.

The Memorial day address will be given by Rev. Huey, pastor of the Rock Prairie Presbyterian church. Other details will not be arranged until the plan, as outlined by the com-

mittee, has been approved by the Post. At the request of the committee a special meeting will probably be called some evening this week for the purpose of hearing the report and taking action on it.

In the estimation of the committee there are many things to recommend the adoption of the plan of having the program of exercises in the park instead of at the cemetery. The chief argument in favor of the change is that many people can enjoy the exercises who would not be able to make the trip to the cemetery. The transportation facilities are never adequate to accommodate the crowd and the committee argues that they can be no less depended on than usual owing to the ball game at Athletic park. It is therefore thought better to have the public exercises at a convenient place where those who desire to attend will not be dependent on any method of transportation.

For some time past prominent members of the Grand Army have thought it would be advisable to have the Memorial day exercises in the city, conducting the decoration of the graves as a more private service. So many are in favor of it that the report of the committee will doubtless be accepted and the plan tried this year.

New Yorker Says He Plans No Political Trip, and Is Not a Presidential Candidate.

Albany, N. Y., April 30.—Ex-Governor David B. Hill today gave out the following statement:

"My attention has been called to the story which is going the rounds of the press that I am expecting to make a political trip through the West and South, either this year or next.

"I desire to express that I do not contemplate any such trip. When recently advised that an invitation was being prepared in the State of Washington and elsewhere, requesting me to make such a visit, I immediately replied that it would be impossible, and requested an abandonment of the proposed invitation.

"I will state further that I am not a candidate for the Democratic Presidential nomination in 1904. I am neither seeking the nomination nor expecting it. I regard all suggestions of candidates at this time as premature and inadvisable. No one can now tell what can or ought to be done in 1904."

MUST STAND TRIAL
FOR A CONSPIRACY

Supreme Court Orders Three Milwaukee Newspaper Men Into the Custody of the Sheriff.

Madison, Wis., April 30.—The supreme court handed down a decision in the Milwaukee newspaper cases. The decision of the lower court releasing by habeas corpus Albert Huguenin, former business manager of The Sentinel, A. J. Aikens of the Evening Wisconsin and M. A. Hoyt of the Daily News, is reversed and the defendants are ordered into the custody of the sheriff of Milwaukee county to stand trial on the allegation of conspiracy of the Milwaukee Journal. The trouble arose over a circulation and advertising rates squabble.

Will Resign Paper Post.

Rome, April 30.—Cardinal Lledochowski, prefect of the congregation of the propaganda side, will shortly resign that office for reasons of health.

ALSO SURRENDERED

The De Wet of the Filipino Forces Has Given Up the Struggle—War Has Ended.

Manila, April 30.—General Tieno, the De Wet of the Filipino insurgents who has been pursued all over Northern Luzon during the past year and more without success, has surrendered.

General Alejandrino, who was looked upon by the rebels as the most probable successor of Aguinaldo, surrendered unconditionally at Arayat, in the province of Pampanga, Island of Luzon yesterday.

"I desire to express that I do not contemplate any such trip. When recently advised that an invitation was being prepared in the State of Washington and elsewhere, requesting me to make such a visit, I immediately replied that it would be impossible, and requested an abandonment of the proposed invitation.

"I will state further that I am not a candidate for the Democratic Presidential nomination in 1904. I am neither seeking the nomination nor expecting it. I regard all suggestions of candidates at this time as premature and inadvisable. No one can now tell what can or ought to be done in 1904."

HANNA'S ATTITUDE
ON THE TARIFF

As Far as He is Concerned There Will Be No Tinkering—Speaks Only for Himself.

Washington, April 30.—"I'm not so cheeky as to endeavor to speak for the republican party," said Senator Hanna this morning when asked what attitude of the party on the tariff question would be in the next campaign, "but I can speak for myself and so far as I am concerned there will be no tinkering with the tariff."

BUFFALO EXPO. WILL
OPEN TOMORROW

Carrier Pigeons Will Carry the News to Many Cities—Buildings Are Not Entirely Ready.

Buffalo, April 30.—Every building on the exposition grounds opened today. The majority of the exhibits have arrived but the installation will be delayed because not a single building will be entirely ready before the twentieth of May. The cleaning of the ground for tomorrow's opening is now being done by six hundred laborers and five hundred carrier pigeons will carry the news of the event to scores of cities in the country.

Choate Lemies a House.

London, April 30.—Ambassador Choate has leased a house in North Berwick, Scotland, until autumn.

THE ELECTROLYSIS ORDINANCE

Passed By the Council Jan. 7, 1901.

Section 1 of the ordinance passed by the council and approved by Mayor Richardson on January 7, 1901, relating to the installation and maintenance of metallic return circuits for conveying electricity used as a motive power for railroads and street railways as follows:

Sec. 1. Every person, firm or corporation, owning or controlling a railroad or street railway within the city of Janesville, upon which cars are now, or hereafter shall be operated or propelled by electricity as the motive power with a grounded return circuit for conveying the electricity, shall install and maintain a metallic return circuit of such cross section and conductively for conveying the electricity so used as a motive power that the maximum difference of potential will not at any time exceed one volt between any part of such metallic return circuit and any water pipes, gas pipes, telephone or telegraph cables or other metals not installed for the purpose of forming a part of such metallic return circuit, and that there will not be a variation in difference of potential exceeding one half volt between any two measurements at the same time at points along and upon said metallic return circuit within a distance of three hundred feet or less from each other. Such metallic return circuit shall be installed and maintained in accordance with the provisions of any order of the city of Janesville, now or hereafter in force.

EIGHT LIVES MAY BE LOST.

Employees and Customers Said to Have Perished in Pittsburg Store Fire. Pittsburg, Pa., April 30.—Fire which resulted in a loss of over \$200,000 consumed the block on the north side of Carson street, between South 16th and South 17th streets. Rumors were current at the scene that eight employees and customers have been burned to death. These have not yet been confirmed.

The blaze originated in the basement of the department store of George E. Lorch and Bro., at Carson and South 17th streets, and spread with alarming rapidity through the entire building.

The flames leaped across South 17th street and damaged the clothing store of E. & A. Erneim. A dozen buildings in the block adjoining the department store were reduced to ruins.

Commuter Death Sentence.

Lincoln, Neb., April 30.—Governor Dietrich today commuted to imprisonment for life the sentence of death upon Frank L. Dinsmore, who was convicted of murdering his wife and the husband of a woman with whom he boarded.

M'KINLEY'S TRIP
THROUGH THE SOUTH

Arose Early This Morning to View Lookout Mountain—Grand Reception at Memphis.

Huntsville, Ala., April 30.—President McKinley arose this morning to view Lookout Mountain at Chattanooga. Several hundred people were at the station there despite the early hour.

Much to their regret the president did not appear and the train pulled out without a glimpse of him.

Last night the President retired at twelve o'clock. His last appearance in the evening was at Bristol, Tenn.

Today's schedule of stops includes Huntsville, Decatur, Tuscaloosa, Ala.; Memphis, Tenn. Arriving in the later city at four thirty this afternoon. The party will sleep aboard the train tonight, leaving for Vicksburg, Miss. at one thirty tomorrow morning.

MADISON TO HAVE
LARGE NEW HOTEL

Madison, Wis., April 30.—A movement is on foot to give Madison a new hotel. If plans are carried out Madison will have a new \$140,000 hotel of which William G. Kling, present manager of the Plankinton house in Milwaukee and Frank Randall, state purchasing agent, will be lessee and managers.

BELOIT TRIMS THE GOPHERS.

Visitors Allow Seven Runs in Fourth Inning of College Game.

Beloit, Wis., April 30.—The game turned out to be a good old-fashioned batting affair. In the first three innings Minnesota got six hits, while Beloit was only able to get a single. It was in the fourth inning that Minnesota went "up in the air" giving Beloit six hits and seven runs, Merrill and Cronkrite each knocking out a three bagger. The score was Beloit 14, Minnesota 8.

SECRETARY ROOT IN
M'KINLEY'S PLACE

Washington, D. C., April 30.—Secretary Root will be the practical head of the government during the president's absence. By precedent Secretary Gage would be the ranking member of the cabinet in Washington, because the office of secretary of the treasury was created before that of secretary of war, and at the cabinet meetings the secretary of the treasury sits next to the president on one side of the table; opposite to the secretary of state on the other side. The law of succession also places the secretary of the treasury next to the secretary of state in the line of those who would succeed to the presidency in case of the death of the president and vice-president. But President McKinley has never followed precedents in these matters. He looks to the men rather than to their offices, and when he has been away from Washington he has always selected some cabinet officer lower on the list than Gage to take the laboring oar. Last year when Secretary Hay was ill and the president absent, Secretary Root was assigned to look after diplomatic and executive affairs because the president trusted him. For the same reason the president has left Secretary Root in charge while he is absent on this trip to the Pacific coast.

FOUR POWERFUL LIGHTS.

New Method of Illumination at the C. D. Stevens Grocery.

Four powerful gasoline lights placed in the C. D. Stevens grocery store, have attracted much attention of late. These lights are of the hydro carbon order, and are each of 1250 candle power. The light obtained is said to be more powerful than an arc light, and is soft and white. These lights are of the Doran patent, and are not as expensive as other means of illumination. MUSICAL-LITERARY
CLOSES THE SEASON

Final Meeting Held at the Christ Church Parish House—Some Gems on the Program.

The Musical-Literary society closed its pleasant and profitable season of work with an enjoyable meeting at the Christ church parish house last evening and in addition to the customary delightful program, the annual election of officers was held. The highest compliment in the gift of the society was paid those who have served so efficiently as officers during the past season and they were, without exception, unanimously re-elected. The officers are:

President—John G. Rexford.
Vice President—Mrs. Christine Hawley.

Secretary—Mrs. Mary Stever.

Treasurer—Stanley B. Smith.

In the absence of Mr. Rexford, Mrs. Christine Hawley presided during the business session which was preceded by the program.

With the exception of the readings this was entirely instrumental the vocalists who had been expected to take part being unable to fill their promises for various reasons.

Mrs. J. F. Sweeney, chairman of the program committee, presided during the program which was composed of selections illustrative of the general subject, Dance Forms. Mrs. J. F. Pember gave an explanatory reading of the evening including a brief history of dance music and definitions of the various dance terms.

Miss Carrie Baldwin opened the program with a very artistic rendition of "Courante" and "Two Minutes" by Handel. Hearty appreciation of the number was shown by the liberal applause which followed. Miss Mae Treat played a double number "Minuet" and "Gigue" by Bach, delightfully, the two selections making a most effective number.

Miss Evelyn Packer, a young pianist whose forceful and brilliant playing is attracting considerable attention, played Hensel's "Tarantalle" pleasingly.

One of the novelties of the evening was the mandolin solo by George Bauman with a piano accompaniment by Miss Tessie Gibbons. The selection was an especially pretty one "Concert Waltz" by Samuel Ziegel and it was very well rendered the audience taking great pleasure in that number.

Miss Tessie Gibbons' interpretation of Paderewski's "Minuet Antique"

was exquisite and one of the best numbers on the program. So continued was the applause which followed that Miss Gibbons was forced to acknowledge the call for an encore although she declined to respond.

The most brilliant selection of the evening was the piano duet "Invitation to the Valse" by Weber, played by Mrs. J. F. Sweeney and Mrs. J. L. Wilcox. The audience was delighted with the number which was exceptionally fine.

Mrs. Wilcox then played very prettily "Pan's Flute" by Godard and "The Cuckoo" by Daquin after which the bright and pleasing program came to a happy and effective close with the rendition of "Two Mazurkas" by Chopin, excellently played by the talented pianist, Miss Jessie Beach.

The work of the coming season will be planned by the executive committee and by the program committee which will be appointed by the president.

AMUSEMENT NOTES

Manager Myers is to be congratulated for his judgment in booking for an engagement in this city, the distinguished comedian, Stuart Robson, who will appear at the Myers Grand opera house on Friday, May 3, when he will present "She Stoops to Conquer." In this comedy Mr. Robson has unquestionably scored the greatest success of a career that has extended over nearly half a century. The company in support of the star is said to be one of the most capable that has been sent on tour this season.

A special feature of this attraction, it is said, are the beautiful dresses that are worn by the ladies. The scene of the play, it is remembered, is laid in England, in the latter part of the eighteenth century, and this fact affords an excellent opportunity for the actresses to display the charming gowns that were the vogue in that period. The costumes worn by the female members of the cast of "She Stoops to Conquer" have all been specially designed for this production.

Their brilliant colors and exquisite designs lend much attractiveness to the performance and are a source of never flagging interest to the ladies who sit in the spectators' seats. Mr. Robson's leading lady this season is Miss Eleanor Barry, who is said to be one of the most beautiful as well as talented actresses on the stage today.

Other leading members of his support are John E. Henshaw, H. A. Weaver, Sr., Brinsley Shaw, O. E. Hallam, Clifford Leigh, Joseph P. Winter, Bert Washburn, Frank Robbins, M. R. K'lein, James Grant, Ellen Mortimer, and May Ten Broeck.

Spring
Humors

It doesn't make any difference whether you believe in the modern theory and speak of the cause of diseases as referable to germs, microbes or bacilli, or whether you use the older and better understood terms of "humors" and "blood diseases"—Hood's Sarsaparilla cures them all JUST THE SAME. It cures those eruptions, boils and pimples which are so likely to appear in the Spring; cures scrofulous diseases in their most tenacious forms; cures salt rheum or eczema and relieves the itching and burning; adapts itself equally well to, and also cures, dyspepsia and all stomach troubles due to generally weak condition and thin, anemic blood; cures nervous troubles, which, in nine cases out of ten, exist because the impure blood cannot supply proper nerve food; cures debility and that tired feeling, which just as surely indicate that the blood is lacking in vitality and the elements of health.

This is not merely modern theory but it is solid, up-to-date fact. Hood's Sarsaparilla has had such remarkable success along these lines that it is not too much to say it is the best Spring Medicine, blood purifier, stomach and nerve tonic that money can buy.

SOMETHING ABOUT THE SENSE OF SMELL

Each Specific Disease Has Its Peculiar
Odor—Distinctive Odor of the
Sexes and Races.

Gavin Payne, in the Milwaukee
Sentinel, has something interesting
to say on the sense of smell, as follows:

"The mechanism of the perception
of odorous substances is about as little
understood as is that of visual or
auditory impressions. But we need
not at this time pay much attention
to the basic anatomical or physiological
minutiae connected with the
sense of smell, nor attempt to clear
up the inexplicable cause or workings
of that which draws the line or
constitutes the difference between
what we appreciate as or call a good
or bad odor. However, it may be
well to add that we know nothing
about the nature of odorous substances
and if we want to describe a
certain odor we have to give the name
of the substance which produces it
or which it resembles.

"The act of smelling takes place
by contact of air, laden with odorous
particles, with the olfactory portion
of the nasal chambers, and
odorous particles give rise to effaction
only when suspended in gaseous
media. For example, scented water
poured into the nose (the tester being
in a recumbent position) and kept
there by the reflex closure of the nasal
fossa by the soft palate, is not
smelled, nor does a scented air current
passing from the pharynx to
the nares (back to front) give rise to
an odorous impression.

"Thus, persons having habitually
an offensive breath do not perceive it
themselves, as in the case of catarrh
or onion eaters, though, of course,
habit, or rather, dulling the olfactory
nerve's sensibility, because of long
familiarity with one odor, would end
in an unconsciousness of that odor,
as sometimes happens in the vomitings
from cancer of the stomach.

"Headache and severe sickness or
faintings may result from the same
continuous odor irritation, as has hap-
pened in choirs and at funerals where
large masses of flowers, especially
tuberous, are displayed, and the at-
mosphere is heavy and close.

Specific Disease Odors.

"Coming now to the specific odors
emanating from certain cases of
disease, I wish to apologize because
of the paucity of the literature on
the subject, for my inability to pre-
sent a longer list, indeed a definite
one for every disease. I believe it
reasonable to think that such a result
is as possible as it is desirable. It
has taken some picking and browsing
to compile, from authorities and per-
sonal experience, the list of special
pathognomonic odors I submit. While
it may be difficult to insure the exactitude,
or even the practical value of
all the assertions, deductions or
symptoms here given, I believe that
enough has been adduced to clearly
show that disease is not bounded by
the surface of the body, but goes be-
yond it.

"Were I pinned down to one word
for each of the sexes by which to de-
pict them by their odor, the words
would be codfish and mushroom. That
is a woman's distinctive smell is
that of a codfish, and a man's that
of a mushroom.

"In gout the skin secretions take
a special odor, which Lydenham com-
pares to that of whey, and there is
more ammonia in the sweat.

"In rheumatism, the odor is aceto-
formic, particularly in the region of
the engorged articulations (Mont.)
We may call it a sour smelling acid
perspiration.

"In diabetes the smell is sweetish,
mawkish; of hay, according to Lath-
am, or rather of acetone (Picot), or,
according to Bouchardat, midway
between aldehyde and acetone, being
due to mixture, in variable proportions,
of those two bodies.

"In jaundice chronic peritonitis
and icterus the odor is musk.

"In scrofulosis it is like that of
stale or sour beer, as fixed by Stark
and Hebra.

"In opilation there is a vinegar
smell.

"A person with pyemia has a sweet,
nauseating breath, as of new-mown
hay.

"In intermittent fever the odor is
that of fresh baked brown bread,
and in scarlet fever that of fresh
baked common bread.

"Yellow fever has a cadaveric
smell, or like the washings of a gun
barrel. Typhoid fever has a kind
of musty smell, often of the odor of
blood. In typhus fever it is ammoni-
cal and mouse-like.

Measles Like Fresh Feathers.

"In measles it is measles, or like
fresh plucked feathers.

"Diphtheria has a sickening, gan-
grenous odor, and is easily diagnosed
by it. Gangrene has an old, dead
meat smell, and so have some can-
cers at certain stages. If there is
much old pus from an actively break-
ing down cancer the odor is more
often like that of decaying fish, and
the smell of sarcomas is more apt to
be of the latter character.

"In milk fever the smell is acid.
Hysterical patients have an odor
of violets.

"Sindamina has a putrid straw odor.
"Ottorhaez has a clinging, long-
lasting odor, not forgotten when
once sensed.

"Scabies has a moldy odor, and
uremia an ammoniacal odor.

"The dreadful odor of a case of

ozeana or bad case of catarrh is fa-
miliar to all.

"In the onset period of the plague
the odor is sweet (Diemerbroeck), or
honey-like, according to Doppner, who
observed the plague at Vatlanke, as
described in the London Lancet of
Feb. 1, 1879.

"Smallpox has a characteristic odor
of its own, but modified as to the se-
verity and stage of the disease, rang-
ing from that of a fallow deer to the
dreadful one of a whole menagerie;
or it may be like that of a burnt horn;
or it may be like that of a burnt horn;
or it may be like that of a burnt horn;

time.

Tar Tanks Burned.
Sidney, B. C., April 30.—Fires de-
stroyed two tar tanks belonging to the
Dominion Iron and Steel company and
containing 320,000 gallons of tar each.
The damage is \$15,000. Three men
were injured by hot tar.

PALE WOMEN

**A Bloodless Face In-
dicates Trouble.**

**Watery Blood a Menace
to Health.**

**WE KNOW HOW PALE
PEOPLE CAN GET RICH
RED BLOOD.**

**COME AND LET US TELL YOU
ABOUT VINOL.**

When blood is watery and thin, or,
as doctors would say, lacks red blood
corpuscles, it is a sign that much is rad-
ically wrong.

We would advise everyone who has
such symptoms to start at once to take
a proper remedy to overcome this trouble.

That remedy is Vinol, the greatest
and most modern tonic and rebuilding.

Vinol owes its virtue to the fact that
it contains in a highly concentrated
state the active curative principles ex-
tracted from cods' livers, the same ele-
ments that have made cod-liver oil
famous for wasting diseases.

These medicinal elements are dis-
solved in a delicious table wine so that
Vinol is most palatable.

None of the vile-smelling obnoxious
grease that characterizes cod-liver oil
and frequently makes it an impossible
remedy for those who should take it,
is found in Vinol.

We could relate many instances
where Vinol has done good and re-
stored the roses of health to the pale
checks of the sufferer.

The following is a fair sample of the
way people write in regard to Vinol:

"For several months I suffered lassitude
and tired all the time. Also a
sinking feeling in my stomach, which
nothing would relieve, and I was pale
and weak. As an experiment I tried
Vinol and if I wrote pages I could not
tell all it has done for me."—Mrs. A.
K. La Farsch, Amesbury, Mass.

Because we know Vinol so well,
and because we know so surely
what it will do, and how it will
accomplish the good it does in a
scientific way, we unreservedly en-
dorse and recommend it, and in
every instance guarantee to refund
to any one what they pay us for
Vinol if they do not find it entirely
satisfactory.

"In milk fever the smell is acid.
Hysterical patients have an odor
of violets.

lasting odor, not forgotten when
once sensed.

THE GRAND FINALE.

The primary election law, which has occupied so much time during the present session of the legislature, is in a fair way to be finally disposed of.

The assembly amendment to the Hagemeyer bill, goes to the senate direct, and will doubtless be rejected by that body without very much discussion. This will throw the responsibility back on the assembly where it belongs, and will either result in the passage of the senate bill, or the whole matter will be referred to a conference committee, where it will expire a natural death.

From the standpoint of good politics, good policy or common sense, the prolonged discussion of the primary law, and the bitterness that it has engendered, will be considered not only a waste of time, but the abuse of opportunities that should have been devoted to important business.

Under the guise of reform the bill has been held before the people and so thoroughly ventilated, that the last vestige of reform has been stripped from it, and the true intent of the measure stands out so prominently, that he who runs may read. Control of the next legislature is the sole and only object of the measure.

While this ambition may be laudable, and perhaps harmless, yet the people at large do not consider it of enough importance, to desire the passage of a measure so revolutionary in character, as the Stevens bill, or the assembly substitute.

It is among the possibilities that Senator John C. Spooner may not desire to succeed himself, and in that event, it is perfectly natural that aspiring candidates should desire to pave the way for a successful campaign, but the republican party in the state is not yet satisfied that Mr. Spooner may not be persuaded to remain in the senate, and if he can be, republican sentiment favors keeping him where he is.

The primary election law might not interfere with Mr. Spooner's reelection, but it would certainly be of no benefit to him, and might make it necessary for his friends to do a great deal of political work that could otherwise be avoided.

Senator Spooner is not suffering for a primary law, the state is not pinning for it, and a large majority of the people don't want it.

The Hagemeyer bill gives every county in the state an opportunity to say whether they want the law as a reform measure, and if it is found that a majority favor it, the next legislature can act intelligently, and without friction. It is one of the cases where it pays to make haste slowly, and this the senate thoroughly understands.

Governor LaFollette is serving his first term as governor. If his administration is satisfactory there is every reason why he should succeed himself. The Hon. Isaac Stephenson possesses ambition and wealth, and is a bright, genial old gentleman, but the people of the state have not yet reached a point where they are ready to say, that he is better qualified as a representative in the senate, than the Hon. John C. Spooner.

The primary law is all right in theory, and its early promoters were doubtless sincere in urging it as a reform measure, but it possesses great possibilities outside of reform, which a free discussion has brought to the surface, and which are too dangerous for party safety or welfare.

As a reform measure the governor will lose nothing by the delay necessary to test the law, however disappointing it may be to Mr. Stevenson, and a little coterie of ambitious politicians who are interested in it as a political measure.

THE CUBAN DELEGATION.

The Cuban delegation has gone home, apparently satisfied that this country is sincere in dealing with the island, and has no desire to take advantage of conditions. The questions in dispute were settled satisfactorily with the possible exception of trade relations, the Cubans contending that reciprocal relations should be established, so that their sugar and tobacco could come in duty free, as an offset to our manufactured products.

The request is reasonable, and will doubtless be considered when congress convenes. The president was powerless to act in the matter, and the delegation thoroughly understood the situation.

A good deal is being said now about reciprocity, not only with Cuba, but with other nations, along the lines that the late James G. Blaine advocated so strenuously. Congressman Babcock purposes to take the matter up and urge it before the next congress.

There is no doubt that as a nation we have reached a point where we

are able to stand alone, and where many of our industries would be benefited by reciprocal trade relations.

This was demonstrated in our late experience with Russia on a question of a little batch of sugar, that amounted to nothing as compared with our farm implement industry, that suffered in consequence. Had we been in a position to talk reciprocity with Russia the whole trouble would have been averted, and the United States would have been the gainer.

Protection has been the salvation of this country, and reciprocity is not free trade. It simply means an exchange of commodities on an equitable basis. With the balance of trade so largely in our favor, this country has nothing to fear through a fair adjustment of trade relations, and Cuba, so close at hand, is a good country to experiment with.

STATE BOOK KEEPING.

A good deal is being said just now about state book keeping, and from the discussion, people who don't know anything about the matter, would be led to believe, that the system now in use is a farce of the first magnitude.

Where so much ignorance prevails, it is very easy to make accusations, and find plenty of people ready to believe them. The fact is, that there are three or four departments that have the handling of state business.

The State Board of Control, in dealing with the state and county institutions, are the largest representatives of public business. This board handles no money except the salary and expense account of the several members.

The stewards of the various institutions, under their supervision, handle no money except from \$50 to \$100 per month that they are allowed for contingent expenses, and this money is accounted for by vouchers every month. All bills bought by the board or stewards are audited by the board, and paid by the state treasurer to the party who sells the goods, the first of every month.

The books, for all of the institutions, are kept in the office of the board at Madison, and the office is prepared to furnish any information at a moment's notice. The system is complete, and so near perfect that other states pronounce it a perfect system.

If other boards will adopt the same system there will be no cause for complaint, but if the whole plan is revolutionized, and the major board adopted, as worked out by the two experts, it will be the worst mix-up that the state ever experienced, and will simply be adding to our expense and labor account that is unnecessary.

Two day days have passed since the abolition of the army canteen and the reports from the various military stations show how greatly congress injured the morale of the army by yielding to the demands of the W. C. T. U. women in the galleries.

If a great strike ever occurs on the gigantic steel trust Morgan Rockefeller & Co. may find that they are not the masters of the greatest combination, on the face of the earth.

If good judgment prevails Cuba will ask for admittance to the union as a territory, and therein will find its most prosperous estate.

It is said that the cases against her in this country will be dropped.

Mayor Harrison will do well to visit Cleveland and see how Tom Johnson closes gambling houses. But then Chicago has no gambling."

Havana is said to be a well kept city and will remain so until the Platt amendment is accepted.

De Wet's mental malady must be contagious. Carrie Nation and Kitchever are both mad.

King Edward will have a full dinner pail now that his wages have been raised.

DEATH TAKES JAMES REID.

Coworker with Inventor Morse Dies After

Long Illness.

New York, April 30.—James Douglas Reid, known as "The Father of the Telegraph," died yesterday at his home here. He had been ill many weeks. Mr. Reid was a pioneer in the use of the telegraph, and a confidant of the inventor, S. F. B. Morse. In 1845 Mr. Reid built the first telegraph line from Lancaster to Harrisburg. He was afterward superintendent of the Magnetic Telegraph company's lines from New York to Washington, of the Atlantic and Ohio line to Pittsburg from Philadelphia, and of the New York, Albany and Buffalo lines. He founded the National Telegraph Review in the early fifties. He was consul at Dunferline, Scotland, from 1889 to 1897.

STORY OF A DEAL
IN LEAF TOBACCO

How C. A. Dille of Dayton, Ohio, Found a Car of the Stuff Which Belonged to Him.

Sunday morning a gentleman arrived in this city on an early train and was taken to the Myers house where he registered as C. A. Dille, Dayton, O. Immediately after registering he went back to the desk and changed his name to C. A. Dilling, Cincinnati, O. He gave as his reason for doing this that he was looking for a party here in the city and that he might skip out if he knew he was in town.

He secured the services of Fethers, Jeffris & Mouat and Chief Hogan and went in search of a tobacco man by the name of Charles E. Baggott of Cincinnati, O., who is stopping at the Grand.

Dille is a dealer in leaf tobacco at Dayton, Ohio. Some time ago he sent Baggott up into this district to purchase tobacco. Dille furnished the money and Baggott was to share in the profits. The business went on all right until Baggott was owing Dille something over \$700.

Dille wrote to Baggott about the matter and was told that the tobacco was here ready to ship and would be forwarded at once. The tobacco did not arrive as expected and Dille finally wired Baggott who said that he would be in the city of Dayton in a day or two to see him. Baggott did go to Dayton and told Dille he did not know that he was in such a hurry for the tobacco and would go over to the telegraph office and wire the agent of the Northwestern in this city to send in the goods.

They went to the telegraph office in Dayton and Baggott wired the Northwestern agent here to ship a carload of tobacco, that was held waiting instructions at once. He then left Dille, and shortly afterwards returned to this city. The tobacco did not come and finally Dille decided to come to this city and arrived here on Sunday morning.

He began to investigate matters at the Northwestern freight house and found a telegram from Baggott to the agent sent from Dayton shortly after the first one was sent, telling him "first dispatch a mistake intended for another point."

The tobacco in question was stored in J. A. Ryan's warehouse. Ryan did not know Dille in the transaction and he had done all the business with Baggott.

Dille found Mr. Baggott and made him a proposition, either to give him the money due him or turn over the tobacco.

At first Baggott was inclined not to accede to his demands, but after he was given to understand that Dille would stand no more fooling he reluctantly signed an order on Mr. Ryan for the tobacco. Dille secured his tobacco and shipped it to Dayton yesterday, and all legal proceedings against Baggott were dropped.

Mrs. Nation's Brother Dead.

Wichita, Kas., April 30.—Mrs. Nation yesterday received a telegram that her brother at Louisburg, Kas., was dead, and she was permitted to go at once and with his bond.

It is said that the cases against her in this country will be dropped.

ORDER RAILS FOR THE ELECTRIC ROAD

MR. CLOUGH SATISFIED JANESVILLE IS ALL RIGHT.

Work of Building the Line Will Begin as Soon as the Survey is Finished—It Will Take About a Year to Put It in Running Shape—Right-of-Way Has Been Secured.

The rails for the Beloit, Delavan Lake and Janesville road were ordered last night. The action of the council last evening satisfied Mr. Clough as far as Janesville was concerned he would be safe in ordering supplies.

The work of building the road will be commenced as soon as the survey is finished and the entire right of way secured. In one or two places between this city and Beloit the right of way has not yet been fully secured.

It will take about a year to complete this road and it will be March 1, 1902 before it can be put in running order.

The company are not at all satisfied with the situation at Beloit. They have been granted a franchise for fifty years in this city and for forty-eight in Rockford. They are not inclined to go on and build a power house and plant costing \$150,000 and let Beloit dictate at the end of thirty years what shall be done with it.

Pressure is being brought to bear upon the promoters of the road in order to get them to locate the power house in this city in case Beloit does not give them the franchise and rights they ask for and they should go around that city. They are investing over half a million dollars in this enterprise and want things arranged so that if there is any loss in running the road it will not be caused by the franchise.

FREIGHT DEPOT ON SOUTH RIVER STREET

Northwestern Road Securing Options and Will Put Up a Down Town Freight Station.

The Chicago & Northwestern Railroad company are securing options on the land on South River street between the street and the river, extending from Center to Holmes street, a distance of two blocks, for the purpose of erecting a down town freight station.

They are not to be outdone by the St. Paul company, and will have a down town house as well as the one at its present location. It will be quite a convenience to the shippers to have the house at this point.

AN EXPERT WINDOW DRESSER

Excellent Work of George Merge at J. M. Bostwick & Sons'.

Well arranged window displays of late at the local dry goods store of J. M. Bostwick & Sons have attracted much attention and favorable comment. To Mr. George Merge belongs to greater portion of credit of these displays. Mr. Merge is an expert in this line of work, and for three and one half years was with Marshall Field & Co. of Chicago. An attractive umbrella and parasol display now holds the main window at the Big Store.

Fire in Town of LaPrairie.

Fire totally destroyed the home of Thomas Newman, a farmer residing in the town of LaPrairie, six miles southeast of the city, shortly after noon today. The family were eating dinner when the fire started and do not know what caused it. The building was a two story frame, valued at \$800. The family succeeded in saving a small amount of household goods. The house and contents were partially insured in the LaPrairie Fire Insurance company.

The State Bank of Orfordville, Wis., is responsible and asks a careful scrutiny as to its promoters. It is recommended by four governors and many banks. Pays four per cent. on six months and 5 per cent. on 12 months time deposits.

Mrs. Charles Preller.

Word was received at this office at a late hour this afternoon announcing the death of Mrs. Charles Preller which occurred at her home on Milton avenue.

Mrs. Mary Wooster Dean.

Funeral services for the late Mrs. Mary Wooster Dean were held from the home of Mr. and Mrs. W. J. McIlroy, 72 Forest Park boulevard, this afternoon at 1:30 o'clock. There was a large attendance of sympathizing friends of the family, and the impressive funeral service was conducted by Rev. W. A. Hall, pastor of Court Street M. E. church. Several appropriate selections were beautifully sung by a quartet consisting of Mrs. C. F. Yates, Mrs. Fannie L. Clark, C. N. Vankirk and George Paris. At the conclusion of the services the remains were taken to Oak Hill cemetery for interment.

Capt. Hall Restored to Duty.

Washington, April 30.—The friends of Captain N. R. Hall of the Marine Corps are content that he has been exonerated of the charges of cowardice made against him by Minister Conger of Pekin. A court of inquiry investigated them on the Asiatic station. Captain Hall has been ordered to return to duty on the Newark and it is assumed that he has been exonerated.

THOUGHTFUL CIRCLE HOLD A BANQUET

Brought Their Season's Study to a Close with Feasting and Merriment Last Night.

Members of the Thoughtful circle of King's Daughters of the Congregational church gathered around banquet tables last evening and with feasting and merriment brought their season's study to a happy close. The circle is composed of about thirty young ladies who meet at the church parsonage every two weeks and, under the leadership of Miss Mary C. Cunningham, devote an hour and a half to the study of the Bible and history. During the past winter the class has been studying the old Bible sages and Scottish history.

The banquet last evening was served in the church parlors at half past seven o'clock. The rooms were handsomely decorated for the occasion, the arrangement of the tables being unique and effective. Three long tables were placed in triangular form, the covers being laid about the outside edge. In the vacant space in the center table was converted into a bank of rich green foliage from the center of which rose a large bunch of fragrant carnations.

Broad streamers of royal purple and white were caught to the chandelier in the center above and fastened to the three corners of the table. The pillars in the room were wound with the same colors, purple being the King's Daughters' color. Potted plants and cut flowers were arranged on the tables which lighted with candles in ornamental chandeliers.

The effect of the daintily spread tables was very pretty and it was an impressive sight when the company of young ladies gathered around them and, standing with bowed heads, repeated a verse in which they asked the divine blessing on their festal gathering.

The banquet was quite elaborate and very appetizing. The menu was especially dainty and tempting and it was prettily served in three courses. The supper was prepared and served by the Ladies' Aid society of the church and four members of the Covenant club of King's Daughters waited on the table very prettily. They were Misses Alice Estes, Coral Bonesteel, Mary Buckmaster and Ella Sutherland.

Following the supper came the program of toasts, Miss Cunningham presiding charmingly. At each plate were the toast cards printed in purple bearing the program and a poem on wisdom. These programs were accompanied by hand-painted souvenir cards cut in the shape of the Maltese cross, the symbol of the society. Each souvenir card bore a sentiment suggested by the study of the past year.

The program opened with a piano solo, a medley of Scottish airs, very prettily arranged and daintily played by Miss Carolyn Van Akin. A musical number, the singing of "Jesus Lover of My Soul" was the closing number.

The responses were all very clever and were as follows: The Inspiration in Historical Study, Miss Frances Ryckman; The Inspiration in Literary Bible Study, Miss Esther Butt; The Inspiration in Spiritual Bible Study, Miss Anna Valentine; The True Inspiration in All Study by Mrs. R. C. Denison; Miss Ada Fenton read Whittier's poem, "Our Master," and the circle recited Kipling's "Recessional" which has been adopted by the young ladies as the special poem of the circle.

Farms Should Be Named.

Rock County Farmer Makes Good Suggestions and Gives Plausible Reasons.

In some localities of Rock county most all of the farms have names and it has been suggested by a prominent farmer that all farms be given a name as a matter of convenience. A farm with a name has a handle. If the owner dies or the property changes hands, the place will be just as familiar at all times. Farms without names are hard to identify because the tenants or owners either die or move away and the Jones farm of today will be the Brown farm ten years from now. Very often lawyers and others would be assisted in their work, mistakes and misunderstandings would be avoided, and vexations would be escaped. If farms were named permanently, legal documents, advertisements, directions about routes, etc., would be given a precision.

Some good farm names are here given:

Highland Park, Castleton, Norland, Northfield, Mayfield, The Lookout, Genfield, Hill Head, Hill Foot.

SMOOTH GAME, BUT
IT DID NOT WORK

Peoples Publishing Co. of Philadelphia,
Run Against a Snag in
Bucyrus, Ohio.

The Daily Forum of Bucyrus, Ohio,
under the date of April 25, prints the
following story:

"A. H. Gardner commenced suit in
Squire Sheckler's court last night
against the People's Publishing Company
of Philadelphia for \$255 and attached
a stock of books to secure
the claim."

"This company entered into a contract with Mr. Gardner to establish a branch office in Bucyrus, of which he was to have charge at a salary of \$125 per month. Mr. Gardner agreed to carry a stock amounting to \$1,600 which he was to purchase from them at fifty per cent discount. They were to send a man here to fit up an office and instruct him in the details of the business. Mr. Gardner paid \$200 on the contract. Yesterday the books and agent came, and with them a draft for \$600, attached to the bill of lading. Mr. Gardner refused to pay the draft until the company had rented and furnished an office and carried out some other provisions of the contract. The agent then secretly had the books billed to himself at Janesville, Wisconsin, and locked in a Pennsylvania car which would have pulled out early this morning if Mr. Gardner had not discovered the wily plan. He immediately commenced suit to recover his money, \$200, and for \$95 damages for breach of contract."

Circular letters were received by people in this city from the same firm. They wrote glowing letters offering a large salary and nothing to do but to conduct an office and have charge of the circulation in his territory. They required, however, that the party accepting the position put up \$800 as security for the goods sent out by the firm which were probably not worth a quarter of what the agent had deposited.

It was a smooth game but it did not work here. The matter has been looked up pretty thoroughly here but an agent of the company could be found in this city.

Tribute to Ogden H. Fethers. The Milwaukee Sentinel of last Sunday published a double column cut of Ogden H. Fethers and has the following to say in that connection:

"It is as a Pythian that Ogden H. Fethers of Janesville is best known; for when he has attained the position of supreme chancellor of an organization like that of Knights of Pythias, achievements in other lines are apt to be somewhat overshadowed. But his activities in the affairs of that secret order have by no means monopolized his energies, as he has been prominent in legal and educational matters as well."

"Mr. Fethers, whose birthplace was Sharon, N. Y., traces his ancestry back to Puritan days. He was graduated with honors from Fort Edwards Collegiate Institute in 1863, and started the practice of law in Cherry Valley, N. Y., three years later. In 1877 he removed to Janesville where he has resided ever since. Mr. Fethers has always taken a deep interest in educational affairs, and has served as president of the Janesville Board of Education and as a member of the state university board of regents. Politically he is a republican, and he was chairman of the republican state convention in 1884. In 1889 he was Wisconsin commissioner to the Centennial celebration of Constitutional government, and he was also vice president of the United States commission to the Paris exposition."

"Mr. Fethers has long been an ardent Pythian. For several years before his election to the position of supreme chancellor, in August, 1900, he was a member of the grand lodge and served on the finance committee. There are few men in Wisconsin who are better known."

Nerves that Die

For lack of nourishment are just as dead as though they were severed with a knife. In either case the base of supplies has been interfered with. Nerves that need nourishing make their wants known through headache, backache, loss of appetite, indigestion, fluttering of the heart, irritability, sleeplessness, and general weakness. Feed the hungry nerves, build them up and make them strong and vigorous, full of vim, vitality and power, with the great nerve food and tonic, Dr. Miles' Nervine.

"For many years I was troubled with nervous dyspepsia. Weeks at a time I have suffered so much that I could not retain food at all. These attacks brought on nervous prostration and I got no rest day or night. I tried many physicians and advertised remedies, but never found relief until Dr. Miles' Nervine was recommended. I then found I could rest well and retain food and was soon restored." MRS. K. PUERNER, Jefferson, Wis.

Dr. Miles' Nervine

quiets the nervous irritation, stimulates the digestion and fills the blood with just the nourishment needed for weak and run-down conditions. Give it a trial.

Going to Build

Whether you contemplate building at an early date or not, you should have a copy of "BAKER'S TWENTY-THREE COUNTRY HOMES" as it is the most complete book of Architectural Designs published.

Nearly 150 pages, printed on heavy paper, it is not a theoretical book. Each design is given in detail with actual working plans of buildings that have been erected under the direction of our supervising architect. Consequently it is practical in every respect.

It embraces subjects from an attractive cottage at a few hundred dollars to a large residence, costing many thousand dollars.

The perspectives are full-page illustrations while the floor plans are half-page sketches.

The descriptions are complete and easy to understand, in fact it is an ideal book of practical, up-to-date designs and intelligent descriptions.

The regular price is \$2.00 but we would like to present you a copy free of charge. If you could call at our office we would take pleasure in presenting you a copy. If it is inconvenient for you to do so, we will send you a copy by express, charges prepaid upon receipt of only 25c, to cover cost of transportation.

ROBBER CAUSES SEPARATION.
Couple, Startled by Thief, Engage in
Quarrel Which Mystifies All.

St. Louis, Mo., April 30.—Mrs. Adie Clark, a bride of four weeks, is the victim of a very mysterious robbery, which incidentally caused her to also lose her husband during their honeymoon.

Mrs. Clark, whose home is in Evansville, Ind., answered the matrimonial ad of Asa D. Clark, of St. Louis. He went to Evansville and married her, afterward telling her that she was his fifth wife.

The couple came to St. Louis, the bride bringing over \$1,000 in money and jewelry with her. They stopped at the residence of Mrs. Martha Gill, who claims to be Clark's sister. While at supper Mr. and Mrs. Clark were startled by a scream, and rushing upstairs found Mrs. Gill on the floor. She said a masked burglar had ransacked Clark's room and had knocked her down.

During the police investigation which followed Clark had a violent quarrel with his bride and for protection she ran to the police station, where she slept over night. Mrs. Clark now says she will return to her former home in Evansville. The police are greatly mystified over the robbery.

IN DEATH CLASP.

Brothers Go Boat Riding and Battle in
Valley on Rockaway Shoals.

New York, April 30.—While hundreds of thousands reveled in the sunshine of the parks and at the seaside two brothers of Brooklyn fought for life on Rockaway shoals, and lost the battle. Their bodies were carried out to sea. Steffens were the names of the unfortunates. One was 28, the other 23. They hired a rowboat from Captain Nathan Wilson and started out to fish. Rowing out from Sheepshead Bay, they tried to cross Rockaway shoals. The tide was running out and they could not control their boat. The surf turned it over and both were pitched into the icy water. The elder Steffens was drowned in an effort to save his brother. They went to the bottom locked in each other's arms.

Bob Ax Weider's Husband.
Marion, Ind., April 30.—David Nation, husband of Carrie Nation, came to Marion Saturday to visit relatives. He attended the performance of Spies' dog and pony show and in the crowd at the entrance he was robbed of \$75 and a pair of cuff buttons that was an heirloom given him by his great-grandfather, who erected the Washington monument in Washington. Nation had only 25 cents remaining after the robbery and cannot return to his wife.

Henry S. Sloan was in the city this morning on legal business.

--Foot Anatomy--

Nature didn't give your feet to you to be abused and distorted into all sorts of shapes, by haphazard made and fitted shoes. We carry the largest assortment of well made,

UP - TO - DATE SHOES

ever shown in Janesville and can properly fit you, and guarantee to give you satisfaction. The shoes for this spring are very nobby and would invite you to inspect our line whether you buy or not.

Good Wall Paper

at 5-6-7-8-9 or 10c a roll, just tell them for us that they are not well posted. When we say Good Wall Paper, we cover every point, style, quality and all. We have ordered four lots of 5 and 6c paper already this season and still goes as rapidly as when we first commenced wrapping it up for customers. There are 12 or 15 designs and colorings in these low priced papers for selection; scrolls, leaf designs, set figures and stripes among them, the style and effects are there the same as in higher priced paper. Every roll of paper on our shelves is new. Estimates furnished on interior and exterior decorating and painting.
